

# Get Instant Rebates on Energy-Efficient Lab Grade Cold Storage

Did you know that some utilities have programs that offer rebates for making energy-efficient choices for your lab grade cold storage? Laboratories in select areas can receive up to \$2,000 toward each purchase of an ENERGY STAR® Certified Ultra-Low Temperature (ULT) Freezer, High Performance (HP) Lab Grade Freezer, or High Performance (HP) Lab Grade Refrigerator. These Instant Rebates are applied right to your invoice as a discount at time of purchase, without the need for any complicated paperwork or a long wait for reimbursement.

Ask your preferred lab equipment vendor about which ENERGY STAR® models are available and eligible for rebates in your area!
