Gas Steamer	\$2,000/cavity	\$ 15,484	90%
Gas Underfired Broiler	\$650/foot	\$ 2,668	20%

Earn Lifetime Savings with High-Efficiency Equipment!

Major cooking appliances account for almost 35% of the average restaurant's energy expenditures.² Efficient equipment can decrease your energy use by as much as 90%.³

High-efficiency equipment uses less natural gas and water, so you pay less on your utility bills.

1. Lifetime cost savings calculations are based on 365 days/year and 12 hours of usage per day, a gas rate of \$1.02/Therm and savings values from the California Electronic Technical Reference Manual (eTRM). Percent savings represent the ratio of the total lifetime cost of a standard-efficiency unit to that of a high-efficiency unit of equivalent size and capacity. Calculations last updated on 08/24/2021. Actual savings may vary.
 2. Energy consumption for commercial kitchens based on Energy Star study: https://www.energystar.gov/sites/default/files/asset/document/CR%20ES%20Restaurant%20Guide%202015%20v8_0.pdf.
 3. Energy consumption savings are based on a comparison of annual gas consumption for high-efficiency and standard-efficiency units of equivalent size and capacity.

Instant Rebates! Point-of-Sale Foodservice Rebate Program

PROGRAM OVERVIEW

The Instant Rebates! Point-of-Sale Foodservice Program is now available to customers within Southwest Gas® territory in California. The Program offers Instant Rebates for natural gas fryers, ovens, griddles, and more.

QUALIFYING EQUIPMENT

Many makes and models of natural gas foodservice equipment qualify for rebates up to \$4,000 per unit. Eligible equipment must be installed at an active, valid, non-residential natural gas Southwest Gas service location in California. For a full list of eligible equipment, visit www.energystar.gov/productfinder or view the California Foodservice Instant Rebates qualified product list on www.caenergywise.com/instant-rebates.
