

Save up to \$9,000 per unit on commercial foodservice equipment!

With the PSE Foodservice Instant Rebates Program you can save on high-efficiency equipment for your business. Choose from a variety of qualifying products and get valuable instant rebates as a discount on your invoice—no paperwork, no waiting. It's easy—here's how:

1. Find a participating dealer at pse.com/foodservice
2. Choose qualifying equipment
3. Receive an instant rebate on your invoice

Eligibility

Customers of Puget Sound Energy (PSE) are eligible to receive Instant Rebates. Equipment must be installed in a location that receives natural gas and/or electricity service from PSE and must use the fuel that PSE provides. Leasing does not apply. Rebates listed in this document are available for equipment invoiced in 2026. Rebate program is subject to change January 1, 2027.

Energy savings with high efficiency

Foodservice equipment accounts for a large majority of restaurant energy use. When you upgrade standard efficiency equipment to high efficiency options that use less energy and water, you can reduce your utility bills by as much as 75%!¹

Self-contained, >199 lbs ice/day	\$300

¹ Qualified products lists (QPLs) can be found on energy-solution.com/pse-qpl. Lists are based on ENERGY STAR® and/or Food Service Technology certification.

² Rebate columns are not cumulative. PSE electric customers qualify for electric rebates. PSE natural gas customers qualify for natural gas rebates.

³ DCV customers using both PSE electricity and PSE natural gas may qualify for a combined rebate.

⁴ Rebate value is dependent on PSE fuel provided at the facility. PSE electric-only and natural gas-only customers will receive a proportion of the total rebate. If PSE provides both electricity and natural gas, then the full rebate applies.
