

COMMERCIAL FOOD SERVICE

ATTENTION: COMMERCIAL FOOD SERVICE EQUIPMENT DEALERS

Give your eligible customers instant rebates at the point of sale on high-efficiency electric commercial food service equipment and earn sales incentives for your business.

As a participating dealer in Idaho Power's Food Service Program, you can earn incentives as you save your customers money and energy—and lead the way in providing access to sustainable technologies for a cleaner future. **It's easy, free to enroll, and makes a difference.**

BENEFITS

- Rebates paid to the customer at the point of-sale motivate the purchase of efficient, high-margin equipment that will save your customer money and energy.
- Instant rebates and no paperwork increase customer satisfaction.
- Sales incentives paid to the salesperson for each eligible energy-efficient product discounted at the point of sale.
- Sales incentive and full rebate repayment provided to dealer within two weeks of application approval.
- Online system allows for streamlined application submittal.
- Additional sales tool provides a competitive advantage compared to non-participating dealers.

ENROLLMENT

- Dealers, distributors, and manufacturers who sell commercial food service equipment to qualifying customers are eligible to participate in this program.
- Rebated equipment must be installed in a commercial location that receives electricity service from Idaho Power.
- Dealers must agree to all program requirements to participate and receive rebates.

Many common makes and models of food service equipment qualify. After application has been approved, eligible equipment must be installed at an active, valid Idaho Power non-residential service location.

Note:

Retrofit: Specific equipment upgrades in existing facilities.

New construction: New buildings, expansion to an existing building, or a major renovation.
